

## How to Make a Kazoo from a Toilet Roll

### You will need...

- Someone to help you – very important!
- An empty toilet roll
- Some greaseproof paper
- Scissors
- Elastic bands
- Optional: pens, pencils, crayons, paints or whatever else you might have with which you can decorate your kazoo!

### Step One (Optional):

Decorate your empty toilet roll!

### Step Two:

Ask your helper to cut a medium-sized square of greaseproof paper using the scissors.

### Step Three:

Fold the greaseproof paper over one end of the toilet roll and secure it using an elastic band.

### Step Four:

Time to make some noise! Hum or sing into the kazoo to make a noise!

This week, have a listen to the professionals do it: we've sent out a link to the YouTube channel *Much Kazoo About Nothing*, where one man covers famous songs using lots of kazoos at once!
